

SHINKA DRY CLEANER EPOS · ADMIN PANEL

Dry Cleaning POS

A complete, multi-branch point-of-sale and back-office system built for dry cleaning and laundry operators — from counter drop-off and garment tracking to payroll, expenses, and executive reporting, all in one admin panel.

- MULTI-BRANCH
- ROLE-BASED ACCESS
- POS TERMINAL
- PAYROLL & HR
- REPORTS & ANALYTICS
- EN · HI · AR (RTL)

Explore the live demo → dry-epos.admin.shinkasys.online

One system for the counter, the plant, and the back office

Every module shares the same customer, catalog, and branch data — so a price change, a new hire, or a closed order is reflected everywhere at once, with a full audit trail behind it. Live demo: dry-epos.admin.shinkasys.online.

01 Dashboard & Executive Analytics

Live revenue, order and expense KPIs

03 Order Management

Full lifecycle from intake to delivery

05 Customer Management & CRM

Profiles, order history, loyalty data

07 Employees, Roles & Branches

RBAC, multi-store staff management

09 Payroll & HR

Salary generation, components, bonuses, leaves

11 Workspace, Language & Theme

Branch switching, EN/HI/AR, dark mode

13 Settings & Tax Configuration

Brand, tax, salary and order defaults

02 Point of Sale Terminal

Counter drop-off, garment tagging, payments

04 Invoicing & Tag Printing

Branded receipts, garment tags, PDF invoices

06 Service & Catalog Management

Categories, colors, products, garment tags

08 Expense Management

Approval workflow, categorized spend

10 Reports & Analytics

Sales, customer, service, P&L reporting

12 Security, Access & Audit

2FA, password recovery, activity logs

Everything a multi-branch dry cleaner needs, in one panel

26

functional modules, one shared data model

3

REGIONAL DIRECTORS

Store health in one screen, updated in real time

Live KPI cards for revenue, order volume, active customers and monthly expenses — scoped to one branch or the whole chain — beside an order-status distribution chart and a recent activity feed.

KPI CARDS

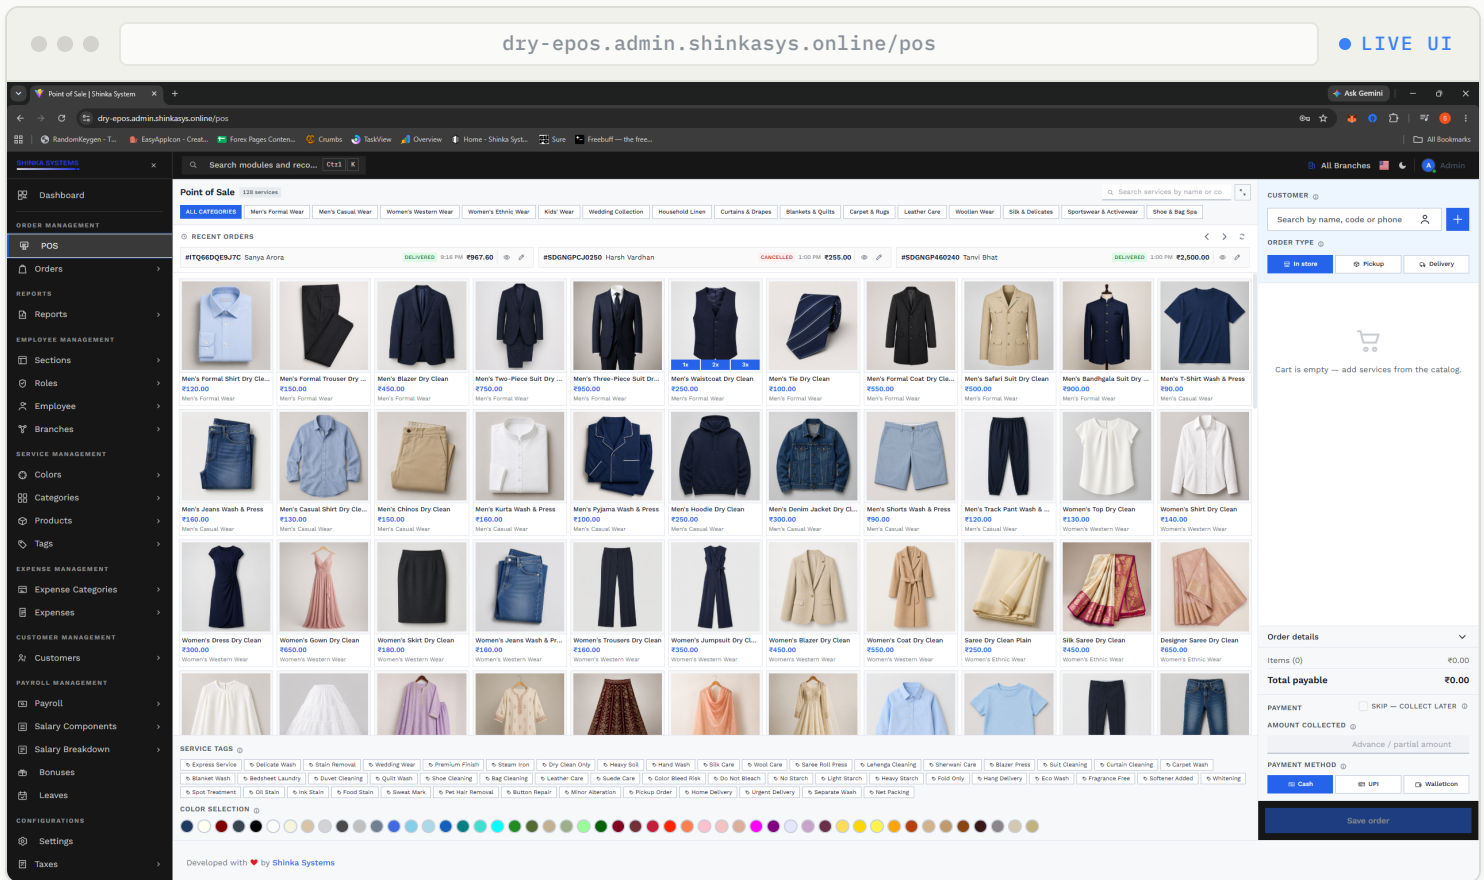

BRANCH FILTERS

STATUS CHART

ACTIVITY FEED

- **98%+ on-time delivery** — real-time backlog visibility keeps orders moving before deadlines slip.

The standard counter view

The terminal runs as a regular tab beside every other back-office screen — no separate app, no separate login, and every keystroke is available to a cashier working a busy queue.

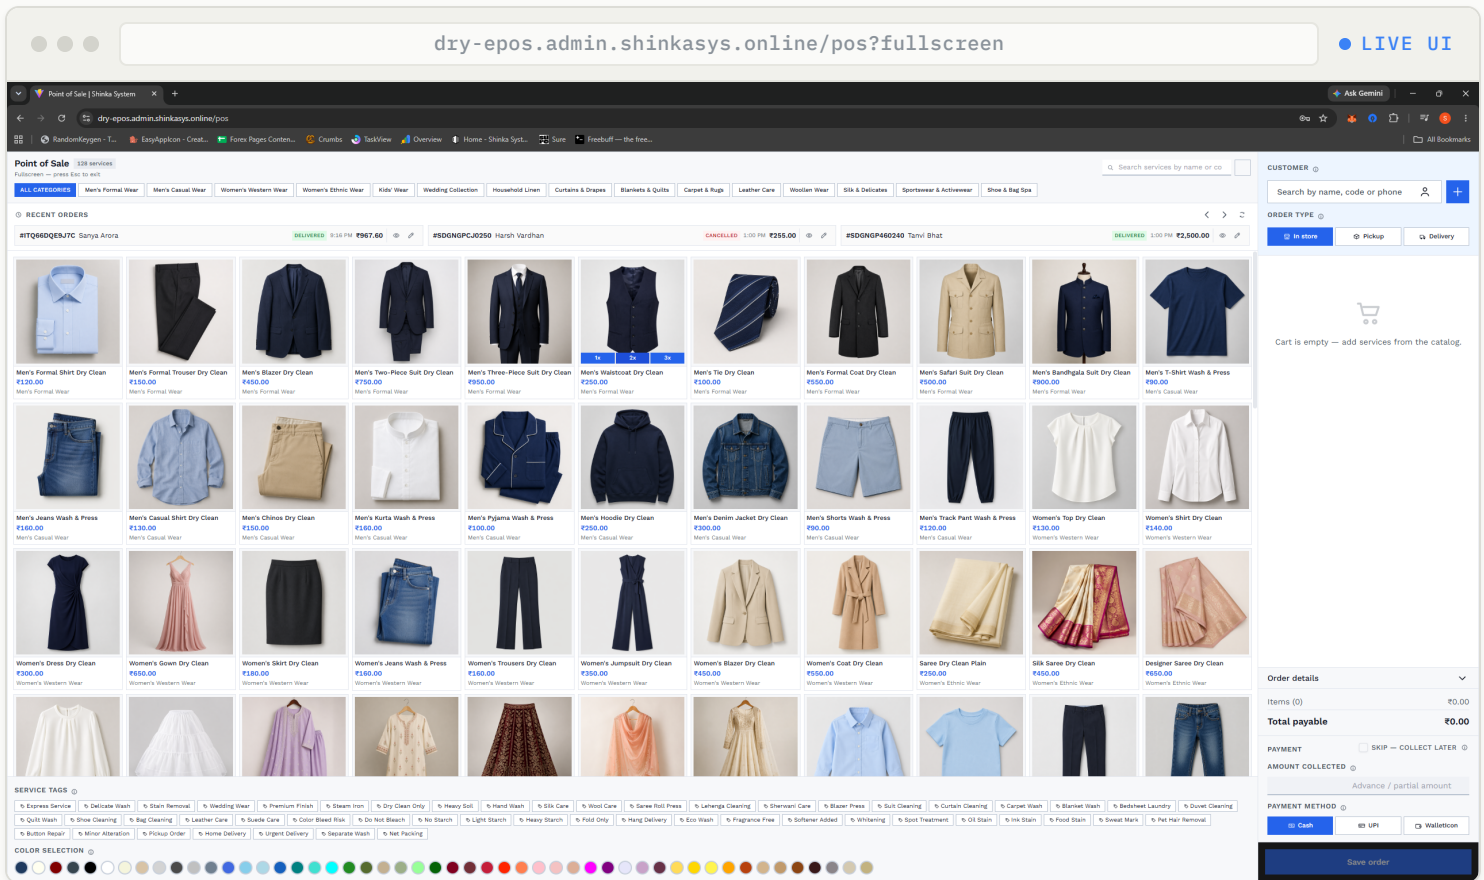

SINGLE APP

NO EXTRA LOGIN

KEYBOARD-FAST

- **<45s average checkout** — the fastest path from a customer at the counter to a printed ticket.

Fullscreen mode for a dedicated till

The same terminal expands to a distraction-free fullscreen mode — ideal for a dedicated front-counter kiosk that never needs to leave the checkout flow.

KIOSK MODE

DISTRACTION-FREE

DEDICATED TILL

- **One focused flow** — a checkout screen built to stay on task through the busiest rush.

Every garment, tracked from intake to delivery

MODULE 03 · ORDER MANAGEMENT

08

One record, full itemization and history

The screenshot displays the Shinka Systems POS interface. The main dashboard shows various order status filters: TOTAL ORDER VALUE (₹32,605), AWAITING PROCESSING (₹4,012), IN PRODUCTION, and READY FOR PICKUP. A modal window titled "Order #ITQ66DQE9J7C" is open, showing a summary of the order, including the order number, type (Delivery), total amount (₹967.60), and delivery date (20/06/2026 09:00 AM). The modal also displays a detailed itemization table with columns for item number, item name, color, quantity, price, and total. The itemization table lists three items: Men's Blazer Dry Clean, Wedding Saffa Cleaning, and Bedsheet Single Wash & Press. The modal also shows a payment history table with columns for payment status, delivery date, and actions.

#	ITEM	COLOR	QTY	PRICE	TOTAL
1	Men's Blazer Dry Clean	—	1	₹450.00	₹450.00
2	Wedding Saffa Cleaning	—	1	₹250.00	₹250.00
3	Bedsheet Single Wash & Press	—	1	₹120.00	₹120.00
				SUBTOTAL	₹820.00
				TAX	₹147.60
				TOTAL PAYABLE	₹967.60
				PAYMENT COLLECTED	₹967.60

Every order's detail view carries its full itemization, assigned colors and tags, payment status and activity history — the single source of truth for that ticket, front desk to workshop.

ITEMIZATION

PAYMENT STATUS

ACTIVITY HISTORY

- **One source of truth** — cashiers and workshop staff read the same live record.

Items can change after the order is placed

The screenshot shows the Shinka Systems admin interface for order management. The URL is `dry-epos.admin.shinkasys.online/orders/1042/items`. The interface includes a sidebar with navigation options like Dashboard, POS, Orders, Reports, Employee, Roles, Branches, Colors, Categories, Products, Tags, Expense Management, Expenses, Customer Management, Customers, Payroll Management, Payroll, Salary Components, and Salary Breakdown. The main area displays a summary of orders with filters for Payment (All Payments, Pending, Paid, Partially Paid, Cancelled) and a table of orders. An 'Edit Order #ITQ66DQEBJ7C' modal is open, showing a table of items with columns for Product, Unit Price, Qty, Total Payable, and Item Status. The table lists items like 'Men's Blazer Dry Clean', 'Wedding Safe Cleaning', and 'Bedsheet Single Wash & Press'.

Garments can be added, removed or re-tagged after intake — and every change is captured in that order's own activity log, so nothing is silently lost.

ADD / REMOVE

RE-TAG

LOGGED CHANGES

- **Full audit** — every edit to an order is timestamped and attributed automatically.

Billing recalculates itself as the order changes

The screenshot shows the 'dry-epos.admin.shinkasys.online/orders/1042/billing' page. A modal titled 'Edit Order #ITQ66DQEBJ7C' is open, allowing users to update billing details, line items, and payments. The modal includes a summary table and a list of items.

ITEMS SUBTOTAL	TAX	TOTAL	PAID	BALANCE DUE
₹20.00	₹147.60	₹167.60	₹967.60	₹0.00

The modal also includes fields for ORDER STATUS (Delivered), TYPE (Delivery), DISCOUNT (0), EXPRESS CHARGES (0), and DELIVERY DATE (20-06-2026 09:00). A 'Save changes' button is at the bottom right.

Taxes, discounts and express surcharges recompute automatically whenever an item, quantity or service is edited — no manual re-tallying at the counter.

AUTO TAX

DISCOUNTS

EXPRESS SURCHARGE

- **Zero re-tallying** — the total is always correct the moment the order changes.

Payments, split across methods, tied to the balance

- **Consistent & compliant** — one template guarantees branding and tax accuracy at every branch.

A customer record that follows every visit

The screenshot displays the 'dry-epos.admin.shinkasys.online/customers' page. The interface includes a sidebar with navigation options like 'Categories', 'Products', 'Tags', 'Expense Management', 'Customer Management', and 'Payroll Management'. The main area shows a 'Customers' table with columns for ID, Status, Name, Code, Phone Number, Email, Address, Balance, Created By, Created At, and Action. The table lists 10 active customers, each with a unique ID, name, and contact information. A search bar and filters are available at the top of the table. The page is branded with 'Shinka Systems' and 'LIVE UI'.

[PRINTED SLIPS](#)

- **-85% damage claims** — documenting pre-existing defects at intake protects the business.

A centralized directory for every store

The screenshot shows a web application interface for managing employees. The URL in the browser is `dry-epos.admin.shinkasys.online/access/employees`. The page title is "dry-epos.admin.shinkasys.online/access/employees". The left sidebar contains a navigation menu with sections: DASHBOARD, ORDER MANAGEMENT, POS, Orders, REPORTS, Reports, EMPLOYEE MANAGEMENT, Sections, Roles, and SERVICE MANAGEMENT. The main content area displays a table of employees with the following columns: ID, STATUS, NAME, CODE, EMAIL, ROLE, BRANCH, CREATED AT, and ACTION. The table lists 11 employees, all with a status of "Active". The bottom of the page shows "Showing 1 to 10 of 11 entries" and "Page 1 of 2".

A permission matrix maps each role to the sections it can see — a cashier role never sees payroll, and a workshop role never touches system settings.

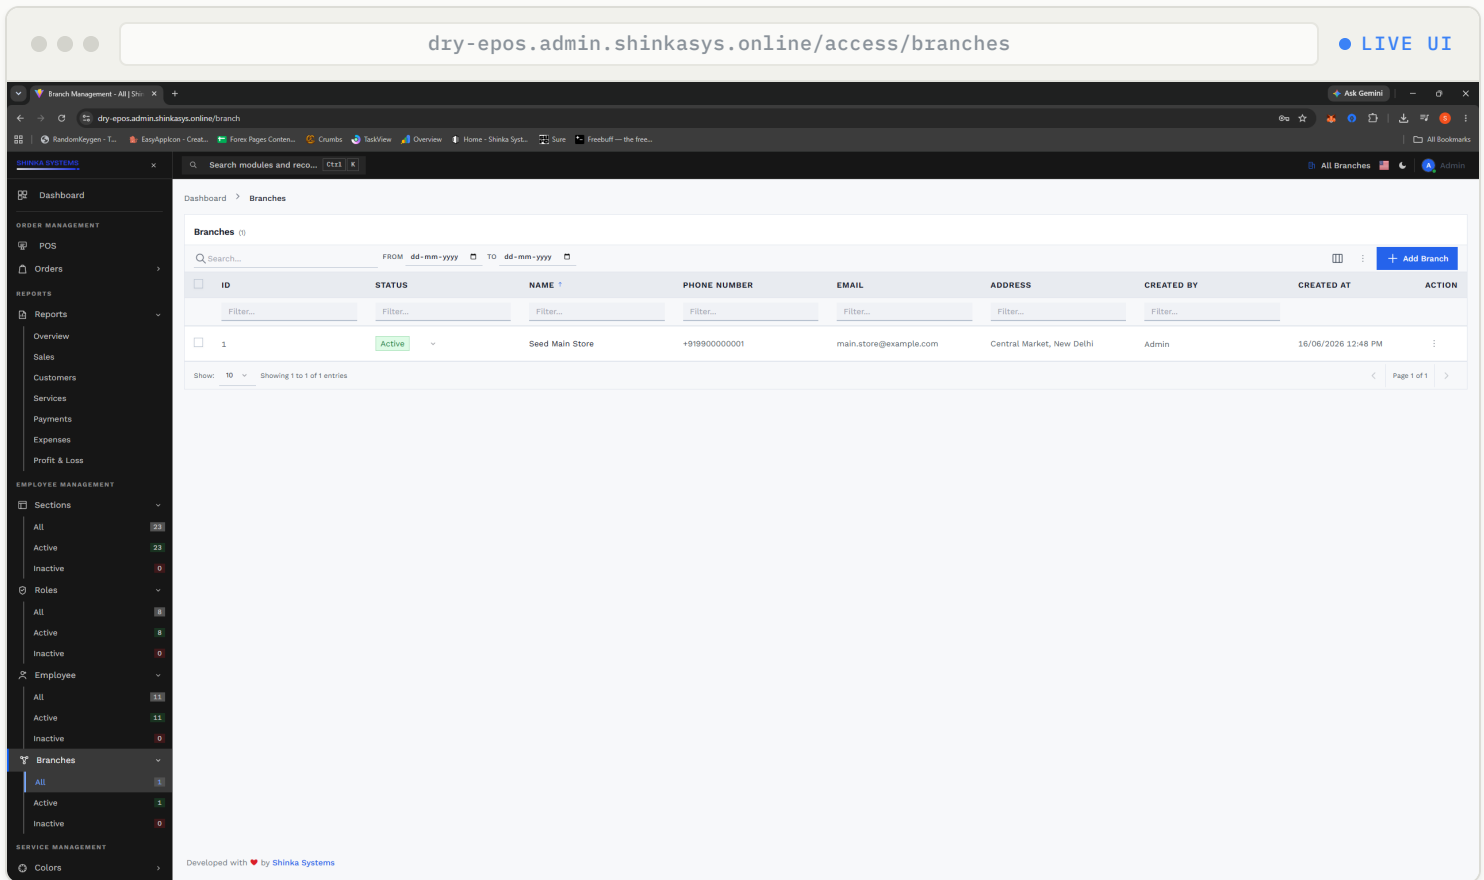

PERMISSION MATRIX

DUPLICATE

LEAST PRIVILEGE

- **Least privilege by design** — role-based access blocks unauthorized changes to core settings.

One registry for every store location

Branches carry their own address, tax registration and receipt footer, and serve as the primary filter key scoping orders, staff and expenses across the chain.

REGISTRY

TAX ADDRESS

SCOPE KEY

- **Scale by configuration** — a new store is a setup step, not a re-implementation.

No cash leaves the till without a paper trail

The screenshot displays the 'dry-epos.admin.shinkasys.online/expenses' interface. It features a sidebar with navigation options like 'Branches', 'Colors', 'Categories', 'Products', 'Tags', 'Expense Categories', and 'Expenses'. The main dashboard includes summary cards for 'TOTAL EXPENSES' (₹5,82,055), 'PENDING APPROVAL' (₹26,849), 'APPROVED (UNPAID)' (₹1,35,609), 'PAID / CLEARED' (₹4,07,497), and 'REJECTED' (₹12,100). Below these is a table of expenses with columns for ID, Status, Amount, Date, Branch, Category, Employee, and Action. The table shows 51 entries, with the first 10 displayed. The status of each expense is indicated by a colored tag: Pending (yellow), Approved (green), or Cleared (blue).

ID	EXPENSE STATUS	AMOUNT	DATE	BRANCH	CATEGORY	EMPLOYEE	ACTION
51	Pending	₹100.00	21/06/2026 05:30 AM	Seed Main Store	Electricity	Meera Kulkarni	
49	Approved	₹2,200.00	16/06/2026 12:00 AM	Seed Main Store	Packaging Supplies	Rahul Menon	
48	Cleared	₹5,400.00	15/06/2026 12:00 AM	Seed Main Store	Equipment Maintenance	Neha Gupta	
6	Cleared	₹3,850.00	14/06/2026 12:00 AM	Seed Main Store	Delivery Fuel	Sneha Iyer	
50	Pending	₹1,899.00	13/06/2026 12:00 AM	Seed Main Store	Internet and Phone	Sneha Iyer	
5	Pending	₹14,200.00	12/06/2026 12:00 AM	Seed Main Store	Equipment Maintenance	Rahul Menon	
9	Approved	₹6,800.00	11/06/2026 12:00 AM	Seed Main Store	Repairs	Karan Malhotra	
2	Approved	₹18,450.00	10/06/2026 12:00 AM	Seed Main Store	Electricity	Priya Nair	
7	Approved	₹2,400.00	08/06/2026 12:00 AM	Seed Main Store	Staff Welfare	Vikram Singh	
8	Cleared	₹7,200.00	06/06/2026 12:00 AM	Seed Main Store	Marketing	Ananya Rao	

Every expense moves through Pending → Approved / Rejected → Cleared, categorized against a standard chart of accounts, with photo receipt attachments and branch scoping, feeding straight into Profit & Loss.

APPROVAL FLOW

CATEGORIES

RECEIPT PROOF

- **No cash leakage** — a multi-stage approval workflow gates every outlay before it clears.

Each employee's breakdown tailors allowances and deductions to their own contract, and feeds directly into the monthly payroll run with no manual re-entry.

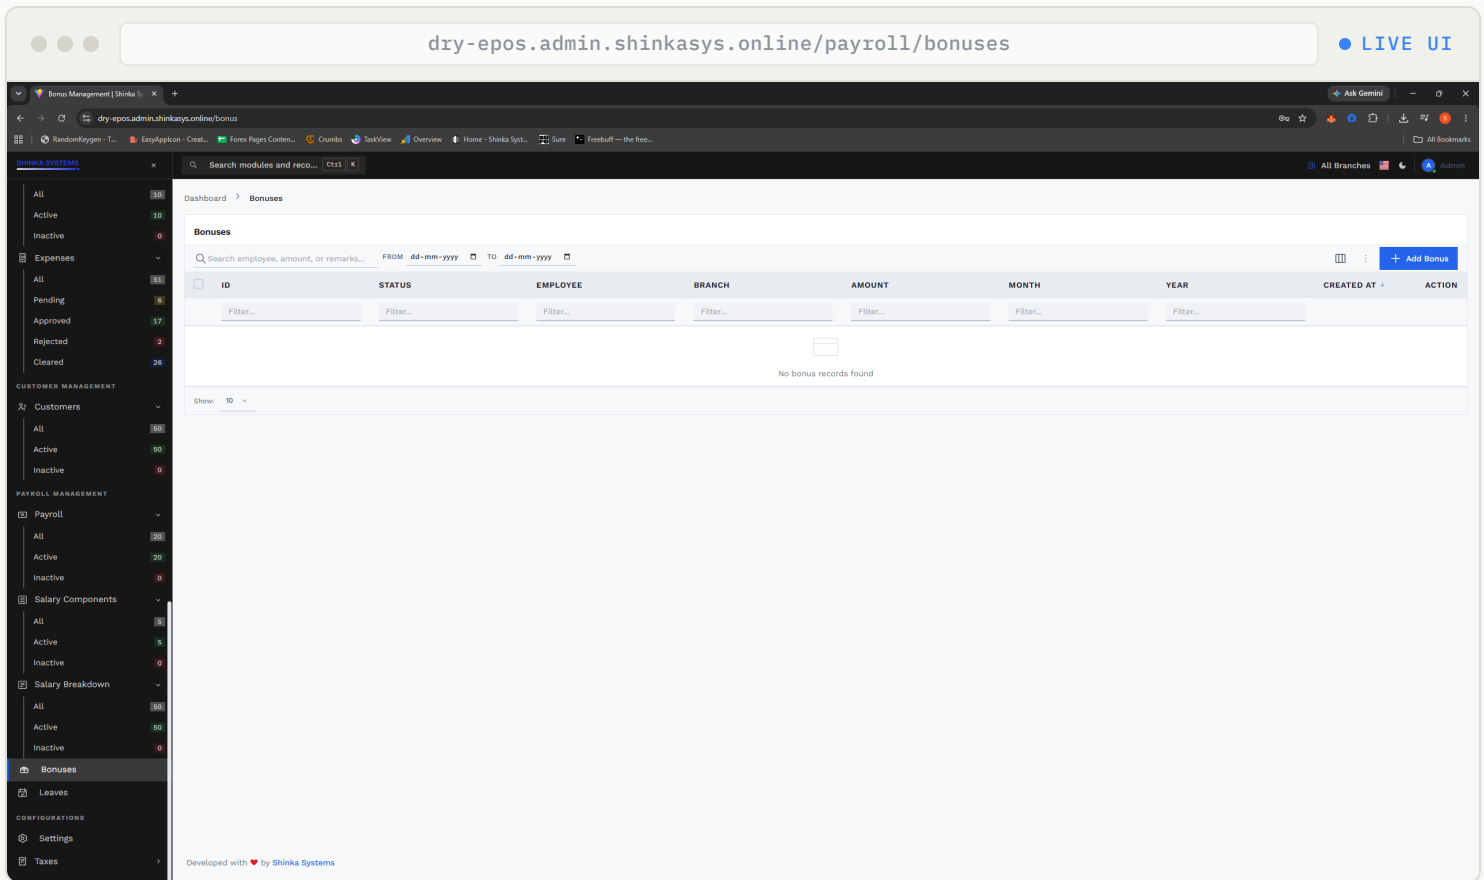

PER-EMPLOYEE

OVERRIDES

PAYROLL FEED

- **Zero re-entry** — pre-set breakdowns drive every monthly run automatically.

Performance bonuses, folded into the next payslip

Sales incentives, holiday gratuities and spot rewards attach automatically to an employee's upcoming payroll run, with a documented reason for every award.

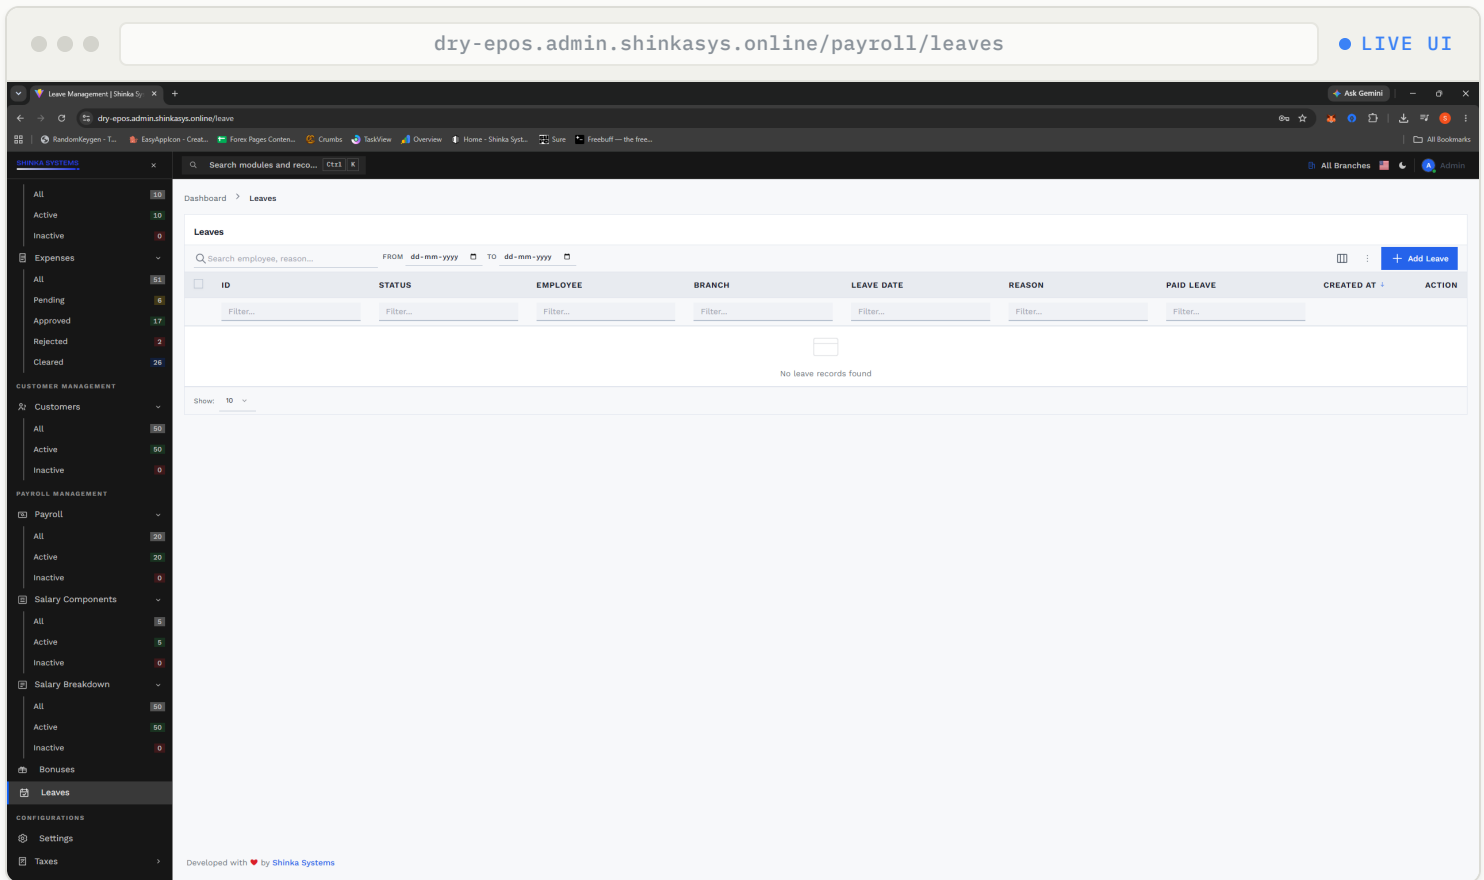

INCENTIVES

REASON NOTES

PAYSリップ MERGE

- **Auto-attached rewards** — incentives fold into the next payslip and drive upselling.

Leave requests that feed payroll automatically

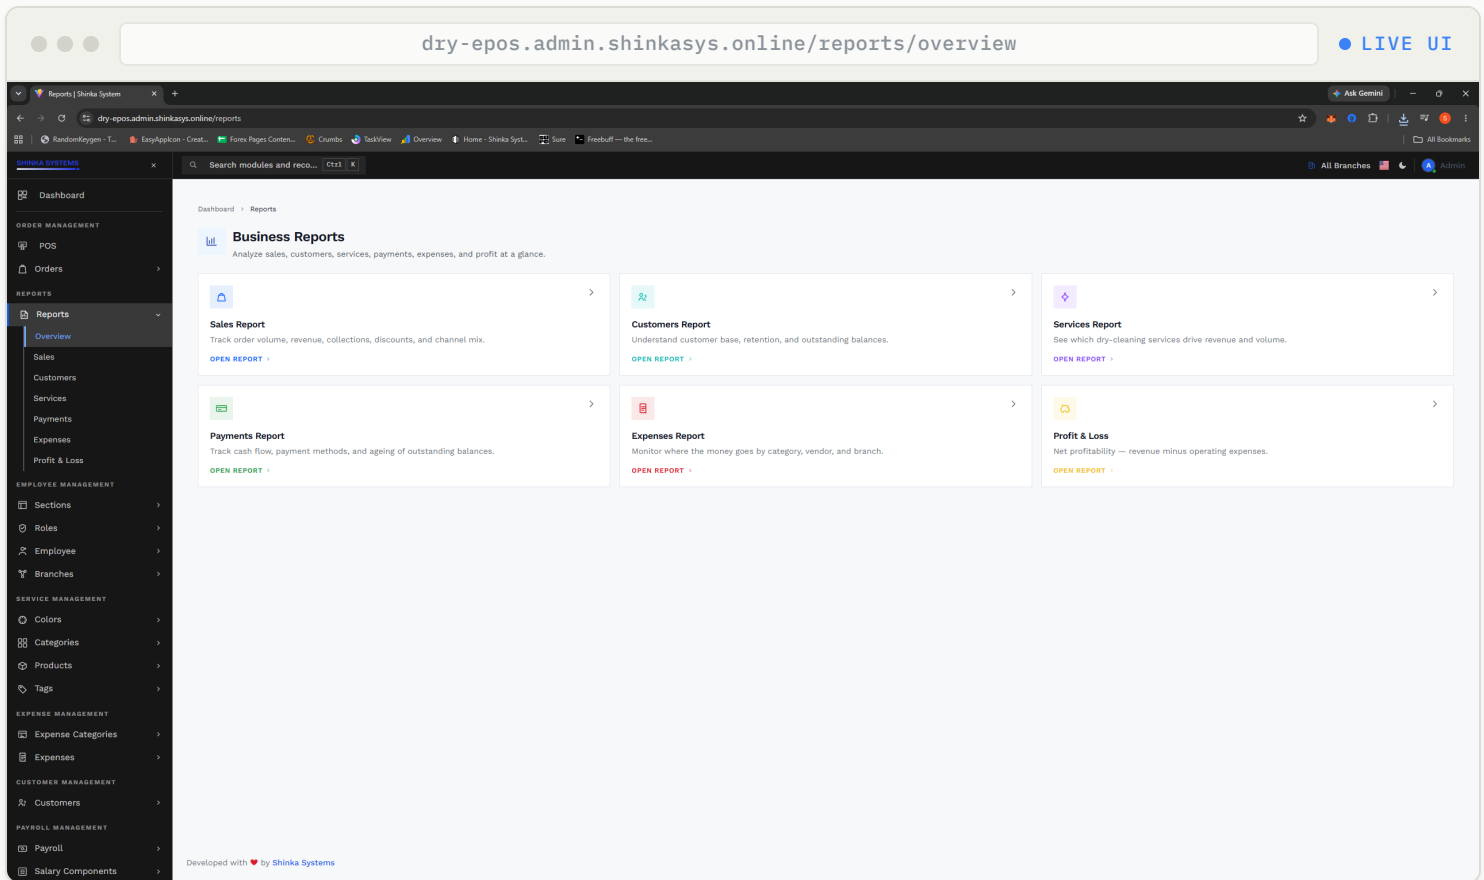

Managers approve casual, sick or vacation leave with store coverage in view, and approved unpaid absence flows straight into that month's salary deduction.

CASUAL / SICK APPROVAL PAYROLL SYNC

- **Full coverage** — leave scheduling prevents staffing gaps during peak weekends.

Chain-wide health, built from the same live data

Sales, orders, customers and expenses roll up into one overview report — filterable by branch and date range, exportable to Excel for external accounting.

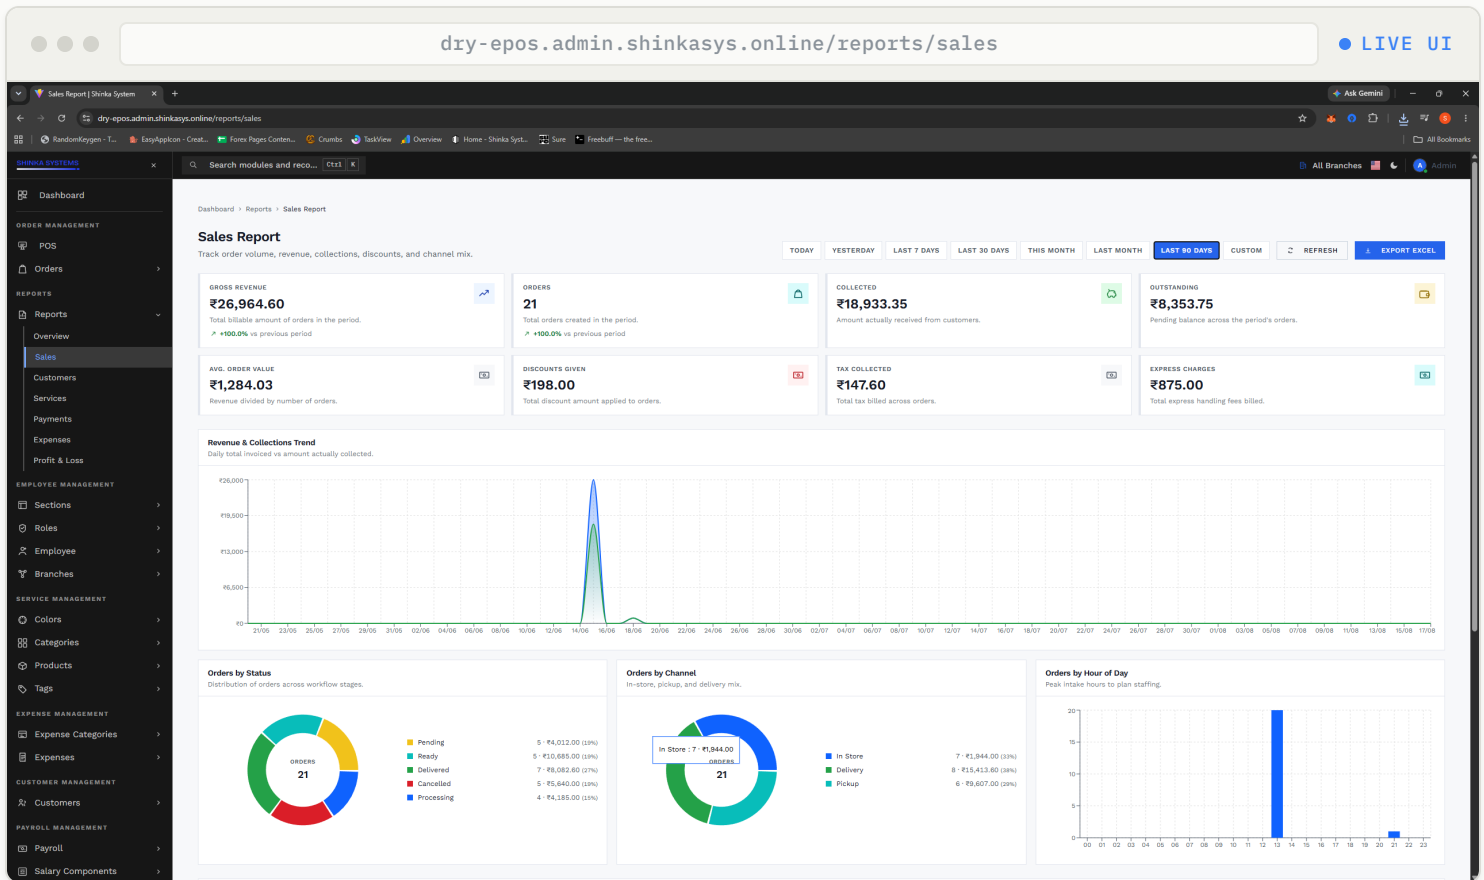

SALES

ORDERS

EXPENSES

- **360° visibility** — every branch's operational and financial health, in a single report.

Sales volume and branch comparisons

Compare average ticket size, order volume and revenue growth across branches, day-over-day or month-over-month.

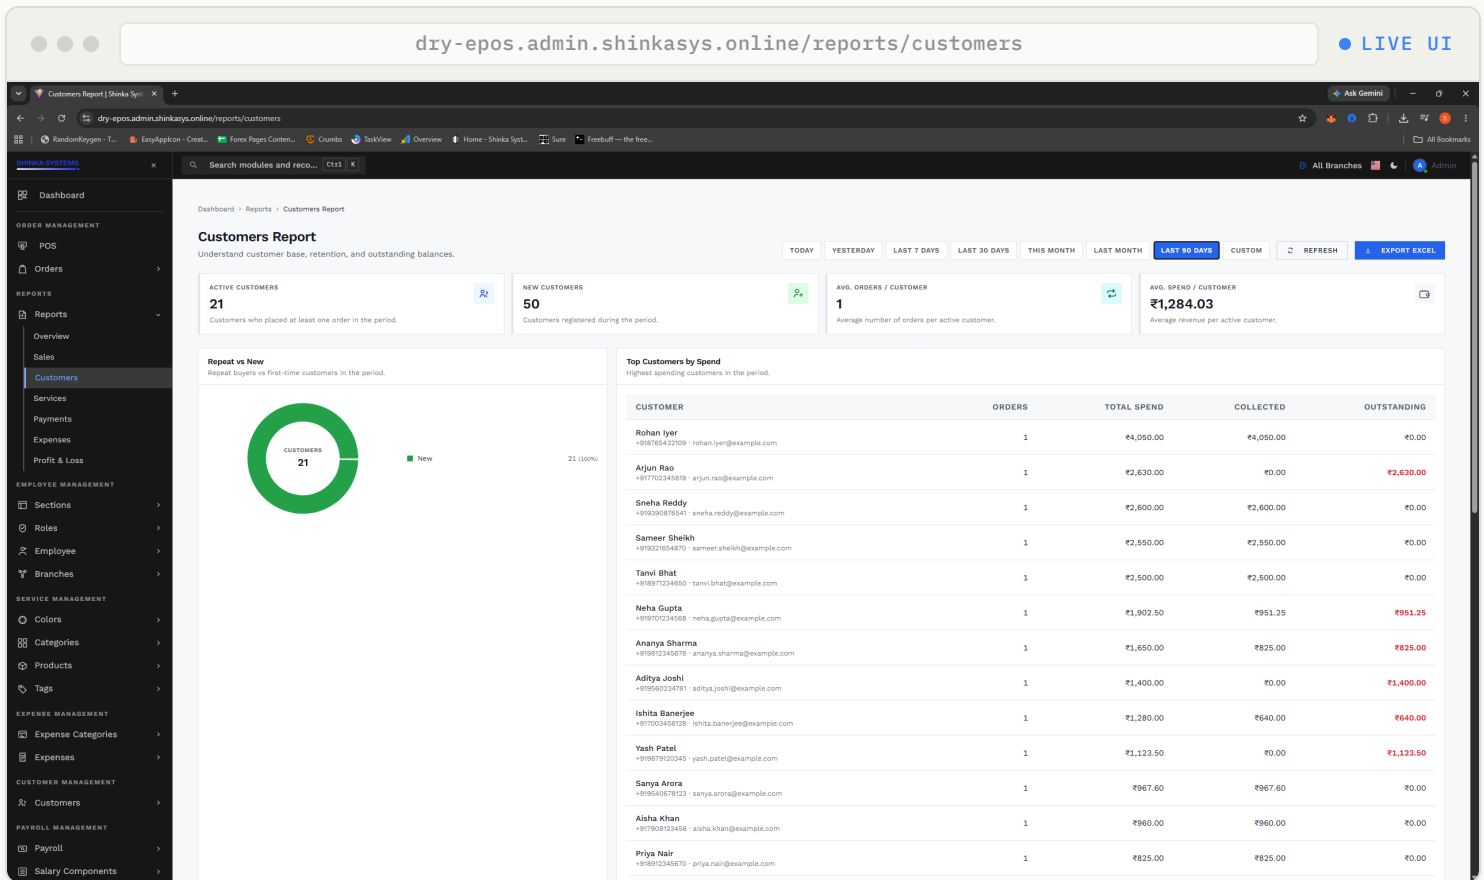

TICKET SIZE

GROWTH

BRANCH COMPARE

- **Branch vs branch** — see exactly which locations are pulling their weight.

Who's coming back, and how often

New customer acquisition, top repeat customers and lifetime value — the data behind a loyalty program or a targeted campaign.

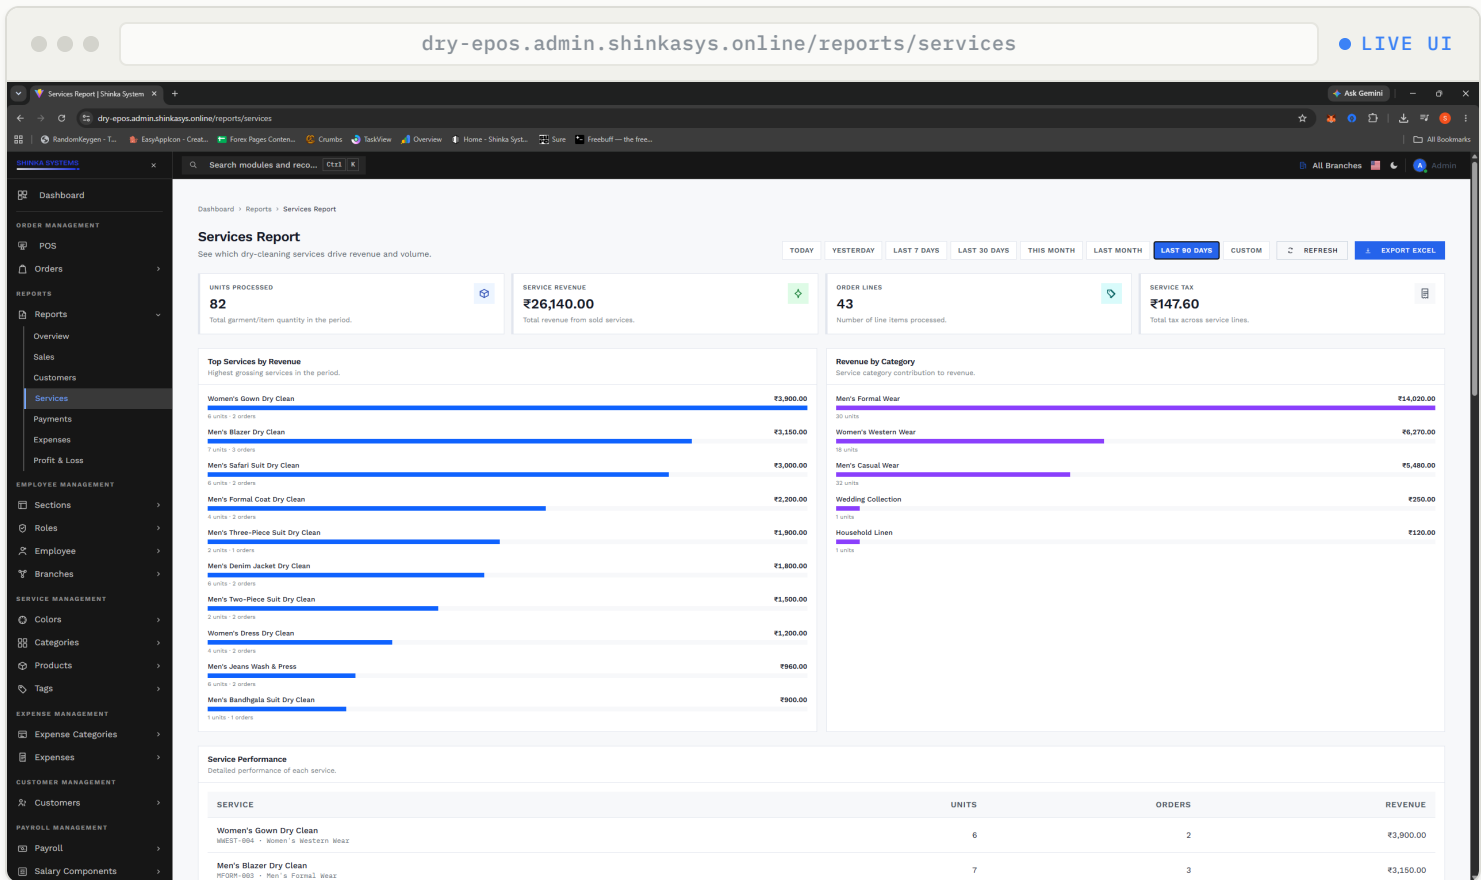

ACQUISITION

REPEAT

LIFETIME VALUE

- **LTV & retention** — the numbers that make a loyalty campaign pay off.

Which services actually earn their shelf space

Ranks the most popular dry cleaning services by piece count and revenue contribution — the data behind a pricing or menu decision.

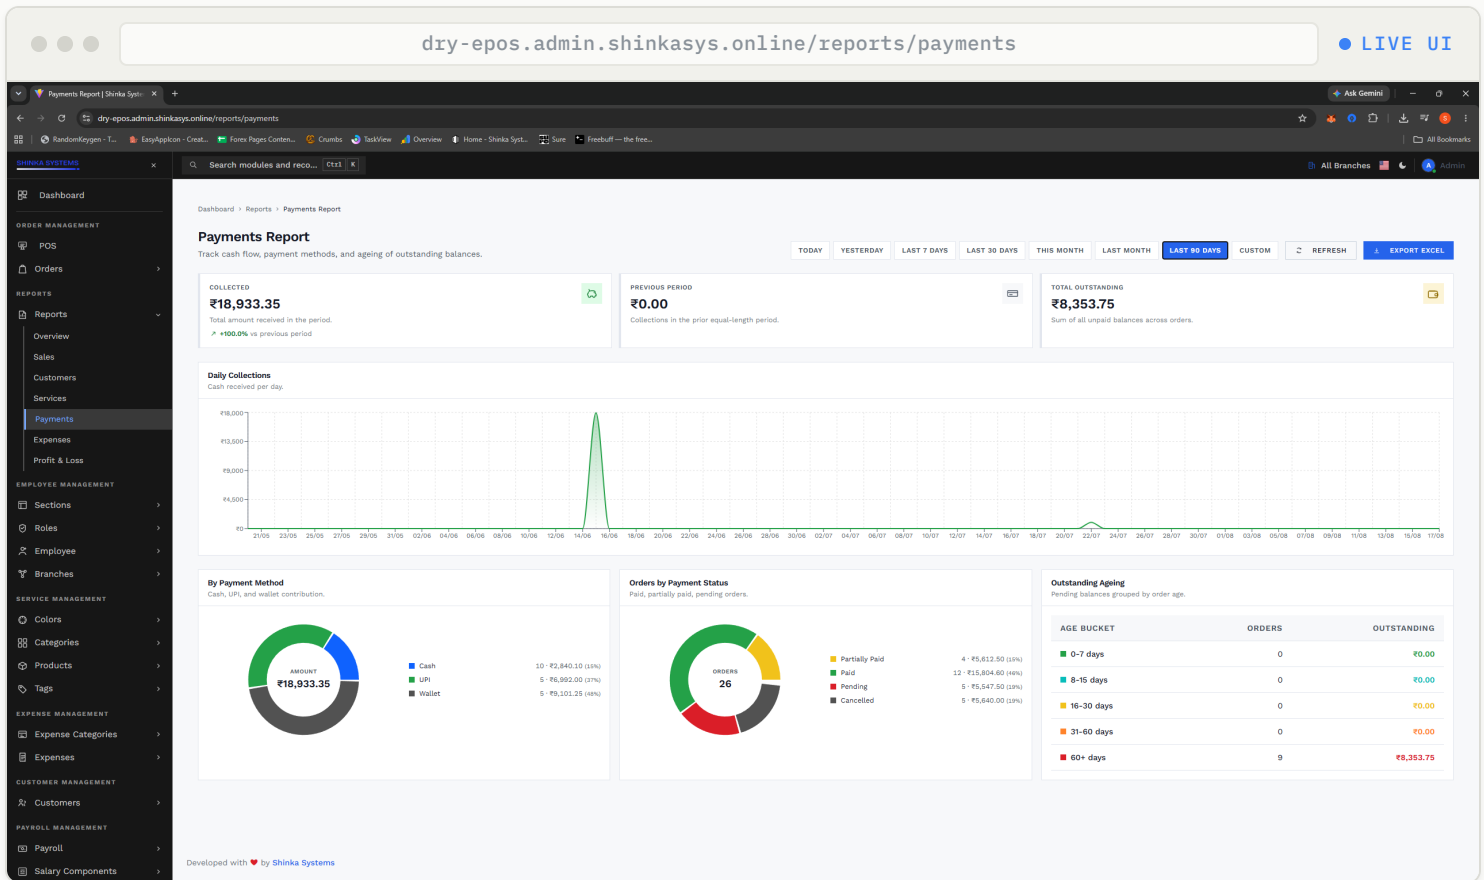

PIECE COUNT

REVENUE RANK

POPULARITY

- **Menu clarity** — spot low-margin services before they quietly erode profit.

Every payment method, reconciled

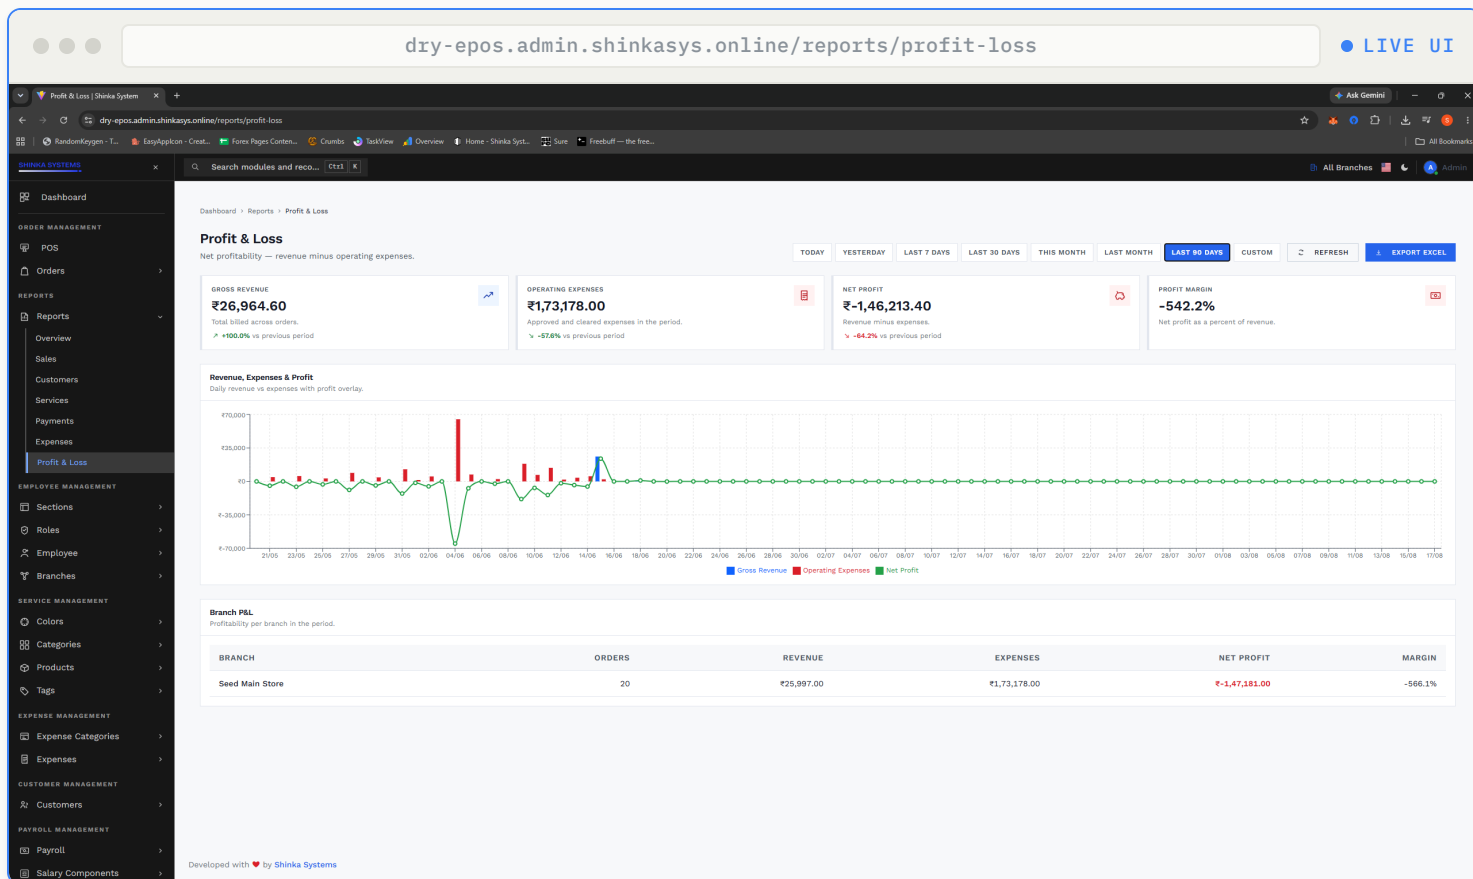

A clean breakdown of collections across cash, UPI, card and wallet — exactly what's needed to balance the drawer at close.

CASH UPI / CARD WALLET

- **Balanced drawer** — every method reconciled cleanly at end of day.

Profit & Loss, without waiting for month-end

Gross sales less categorized store expenses, computed live — no waiting for an external accounting cycle to know which branch is actually profitable.

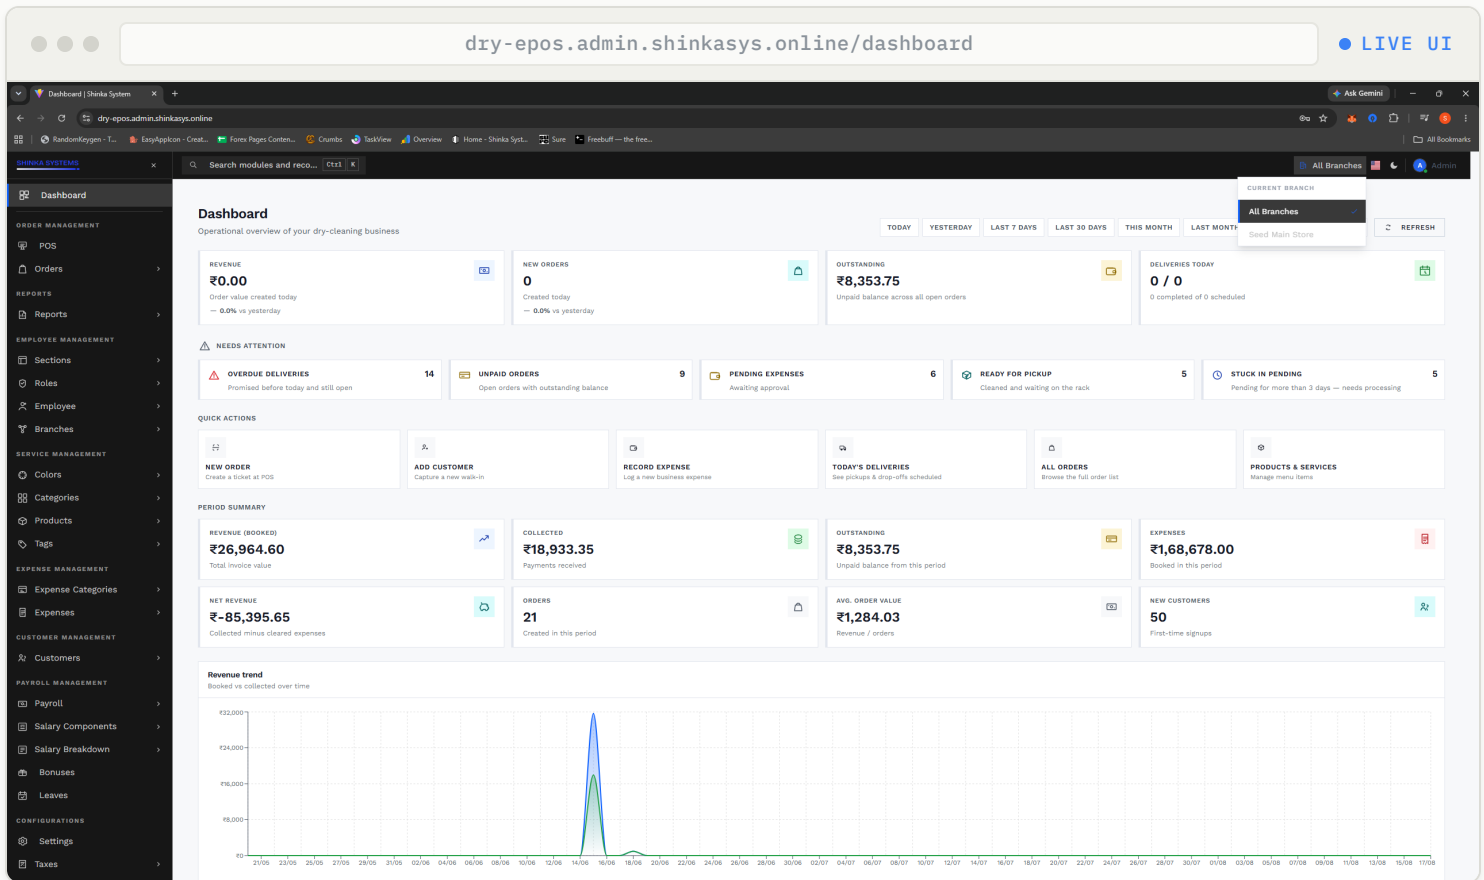

GROSS SALES

EXPENSES

NET MARGIN

- **Instant P&L** — live profit clarity, branch by branch, with no month-end wait.

Switch stores without a logout

A branch switcher in the global header re-scopes every open screen instantly — orders, customers, staff and reports all reflect the newly selected store.

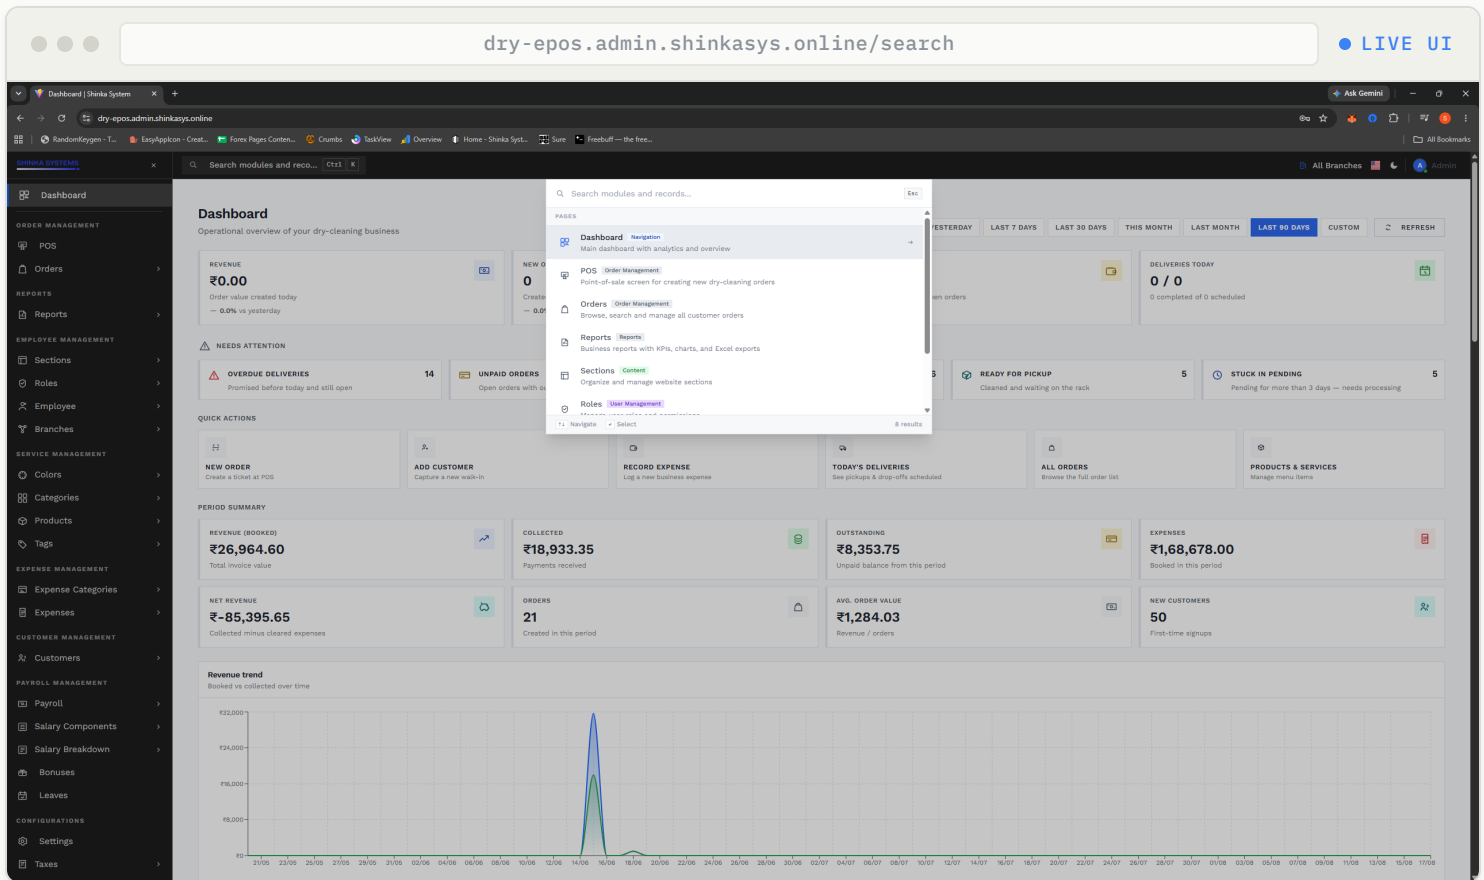

HEADER SWITCHER

LIVE RE-SCOPE

NO RELOAD

- **No logout** — switching store context re-scopes every screen without a page reload.

Any record, any page, one keystroke away

A command-palette search dialog reaches navigation routes and database records alike, cutting time-to-record by roughly half.

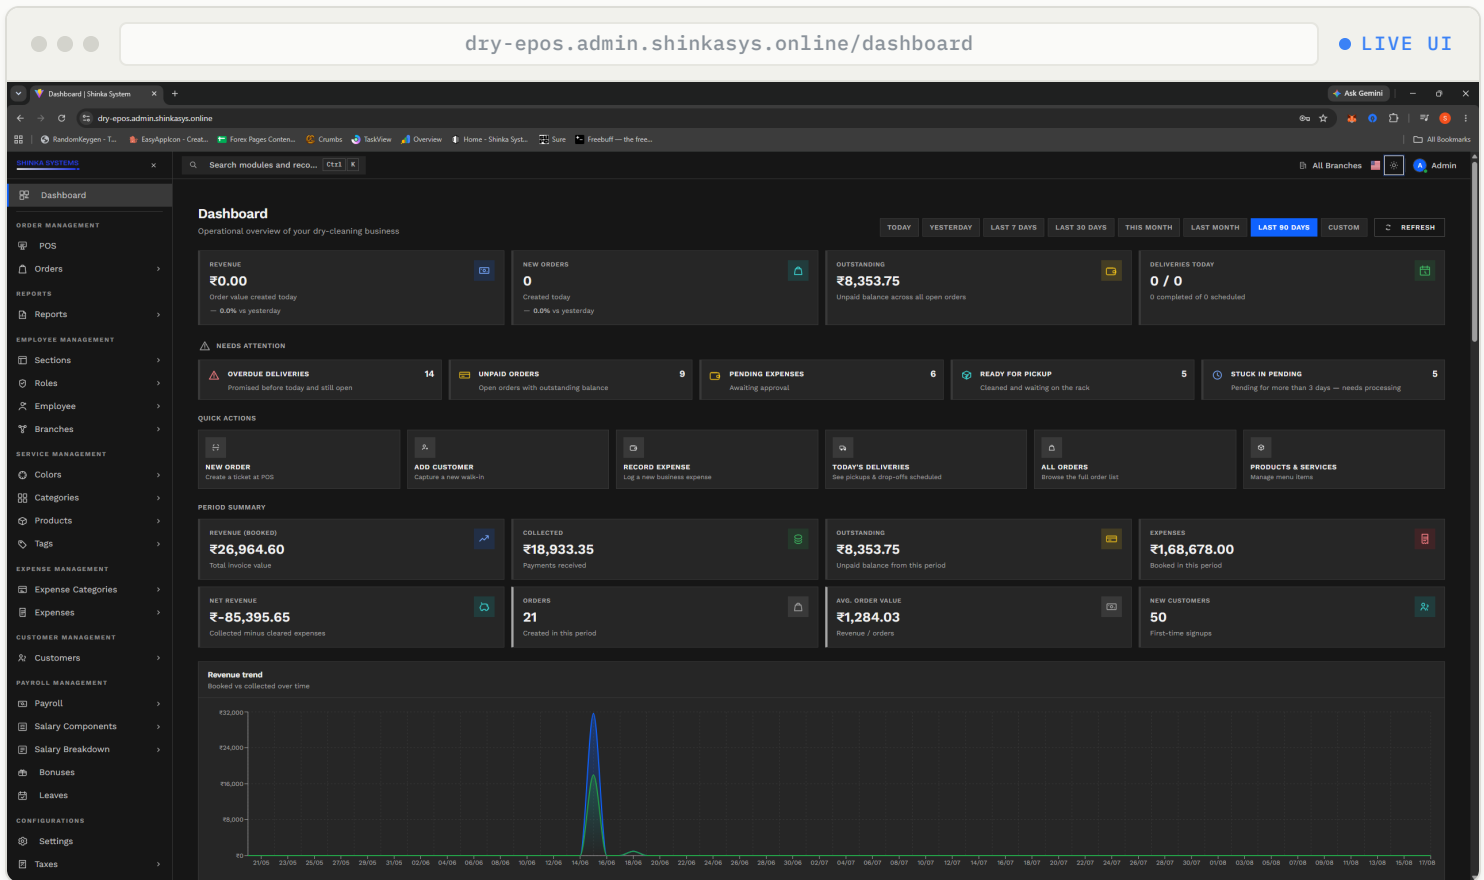

COMMAND PALETTE

ROUTES

RECORDS

- **-50% time-to-record** — one keystroke reaches any page or database record.

Dark or light, on the same design tokens

Theme switching is instant and applies consistently across every module — comfortable for a back-office shift or a bright front counter alike.

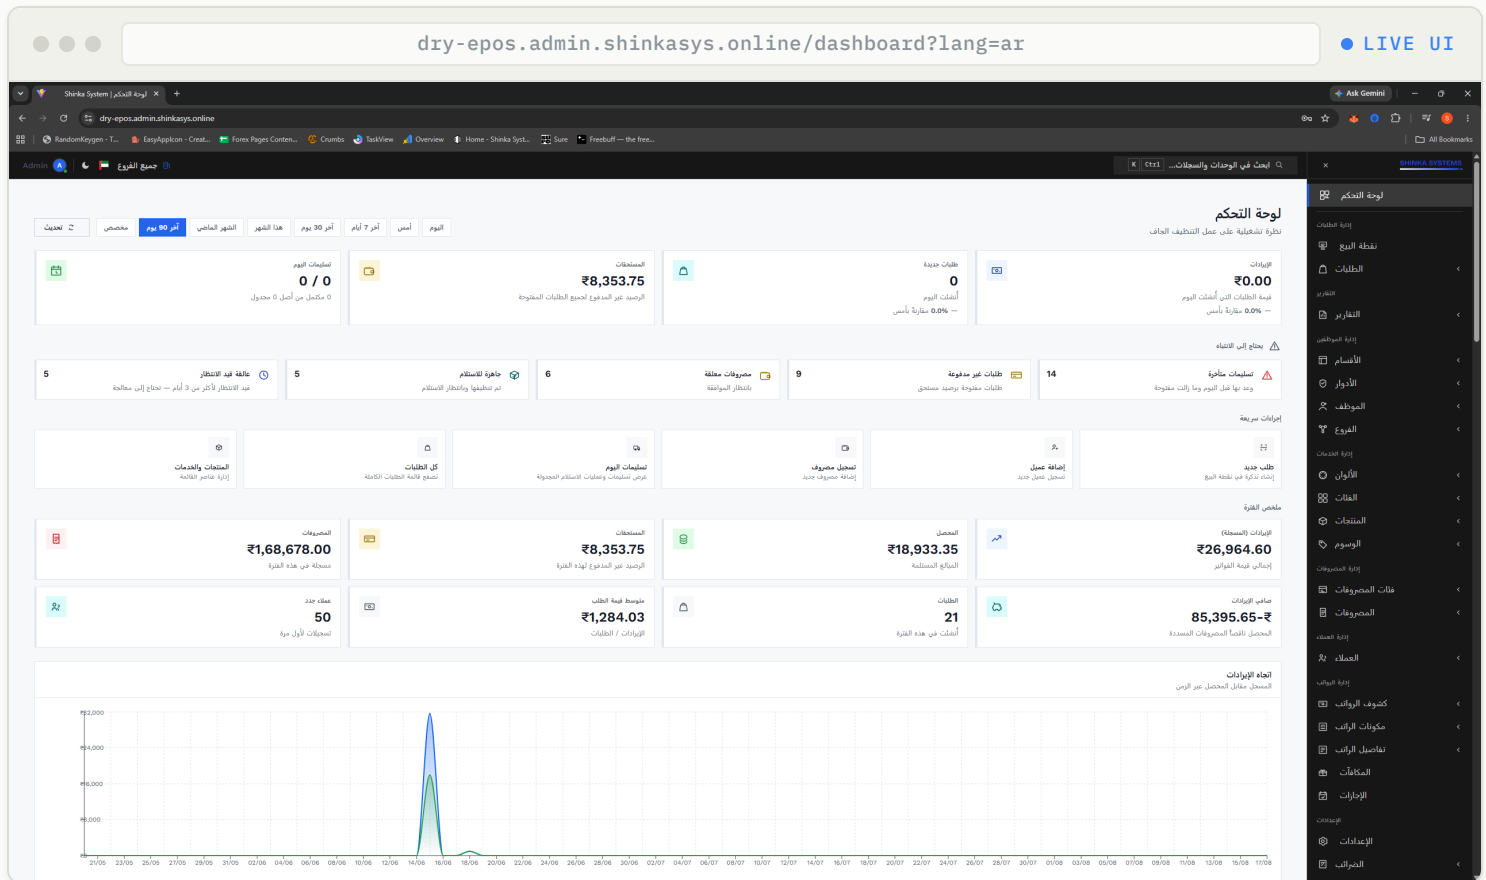

DESIGN TOKENS

INSTANT

SYSTEM-WIDE

- **One token set** — dark and light stay perfectly consistent across every module.

English, Hindi and Arabic — true RTL, not a mirror hack

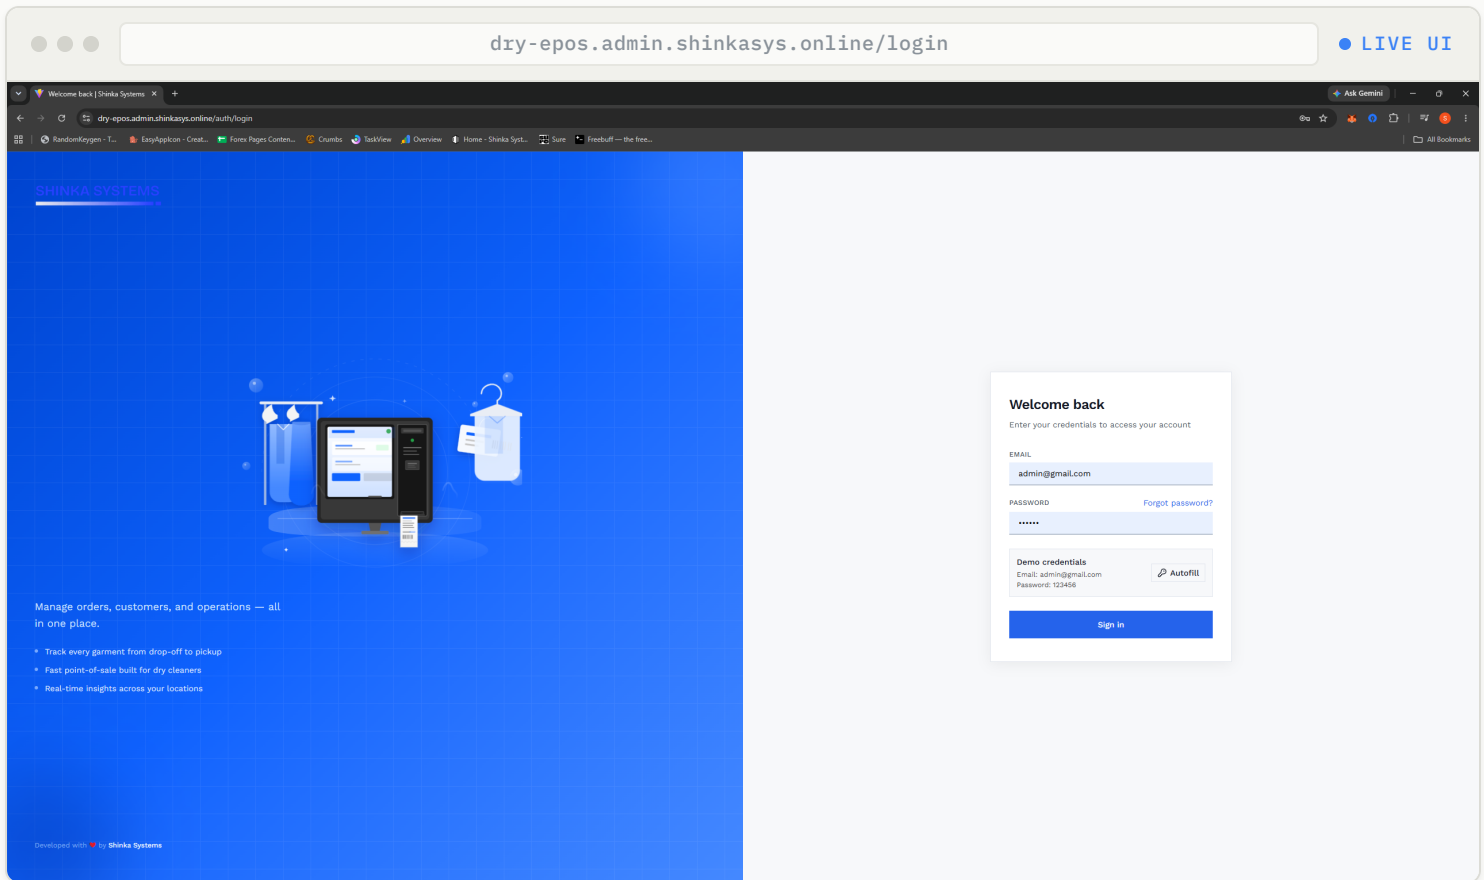

Switching to Arabic re-flows the entire layout right-to-left automatically, removing the language barrier for multi-lingual store operators.

ENGLISH HINDI ARABIC RTL

- **True RTL** — a full layout re-flow for Arabic, not a superficial mirror.

Sign-in guarded by two-factor authentication

Staff sign in with email or employee code, with optional TOTP two-factor authentication and bcrypt-hashed passwords behind every session.

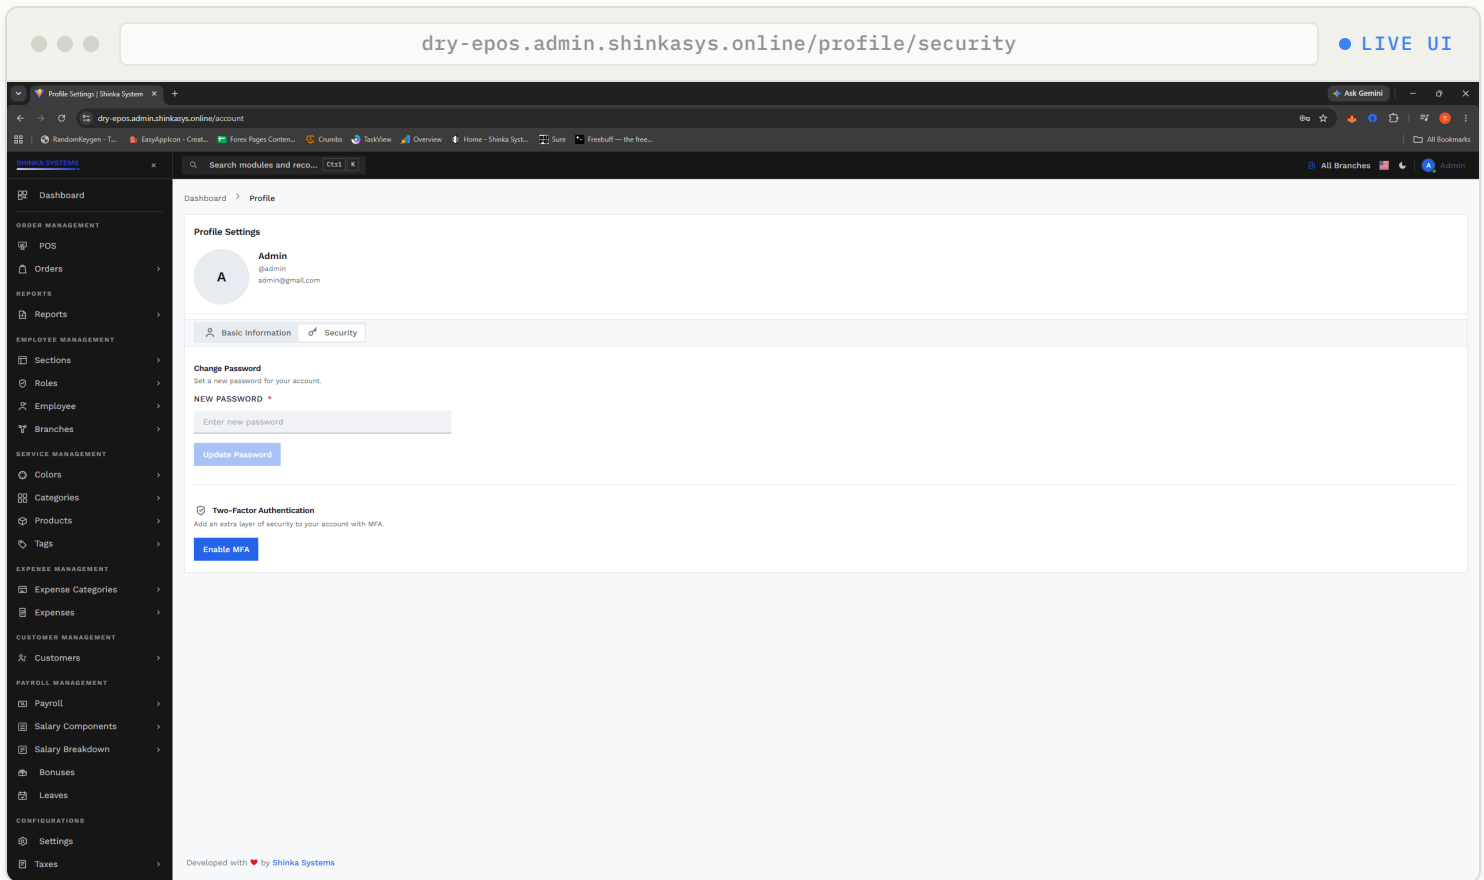

DUAL LOGIN

TOTP 2FA

BCRYPT

- **99.9%+ lower risk** — enforcing 2FA across admin roles all but eliminates account takeover.

Self-service security, no IT ticket required

Staff change their own password and enroll in 2FA via QR code from their profile — and every field-level change across the system is captured in an immutable activity log.

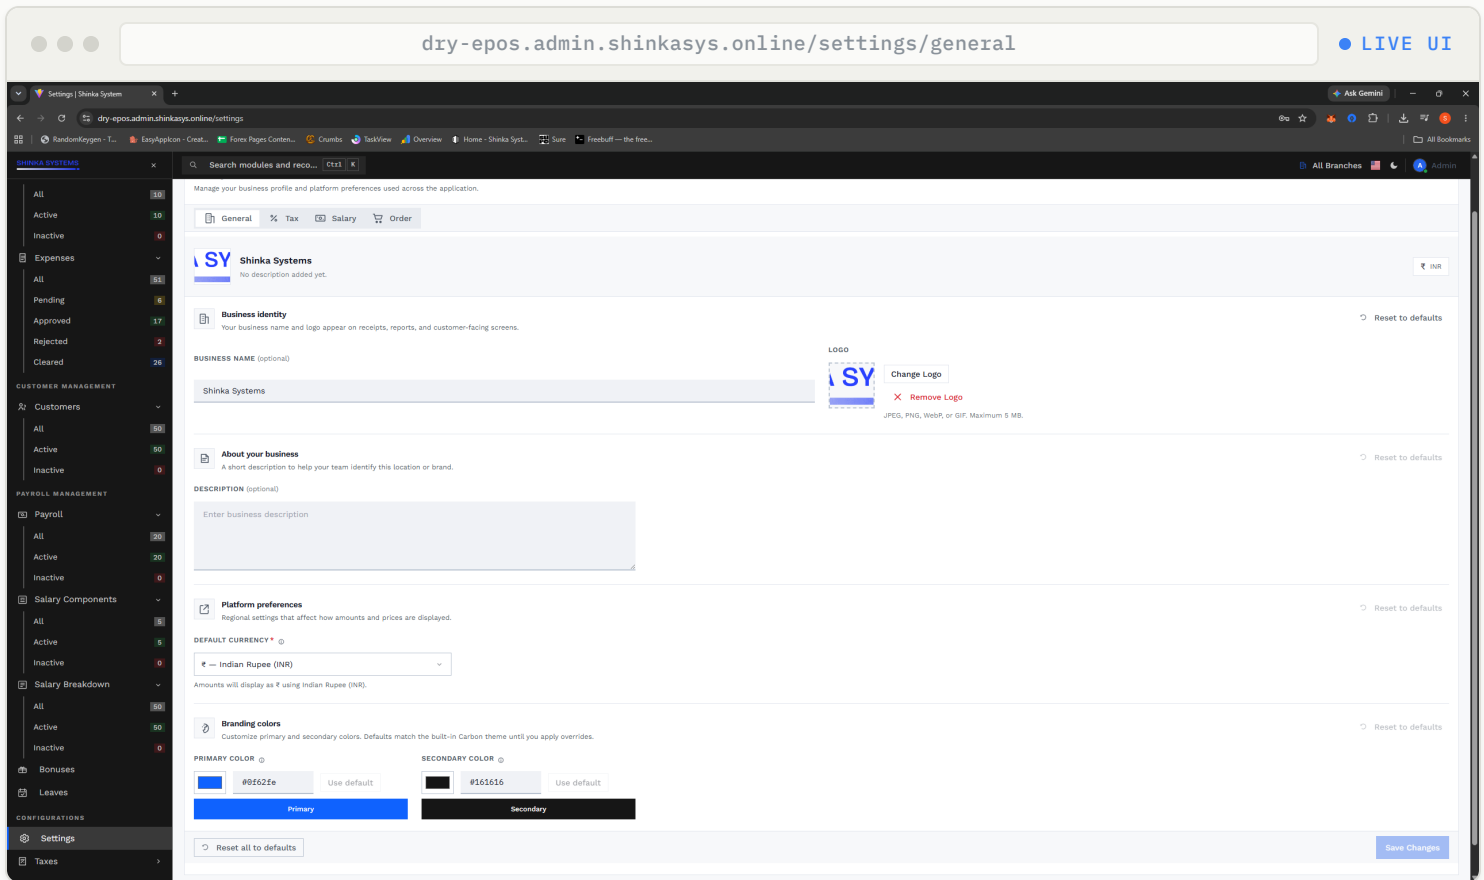

SELF-SERVICE

QR ENROLL

AUDIT LOG

- **-80% reset tickets** — self-service credentials free IT from routine password resets.

Brand identity, set once, applied everywhere

Logo, contact details, currency symbol and theme defaults live in one settings tab, and flow through to every receipt, invoice and email the system sends.

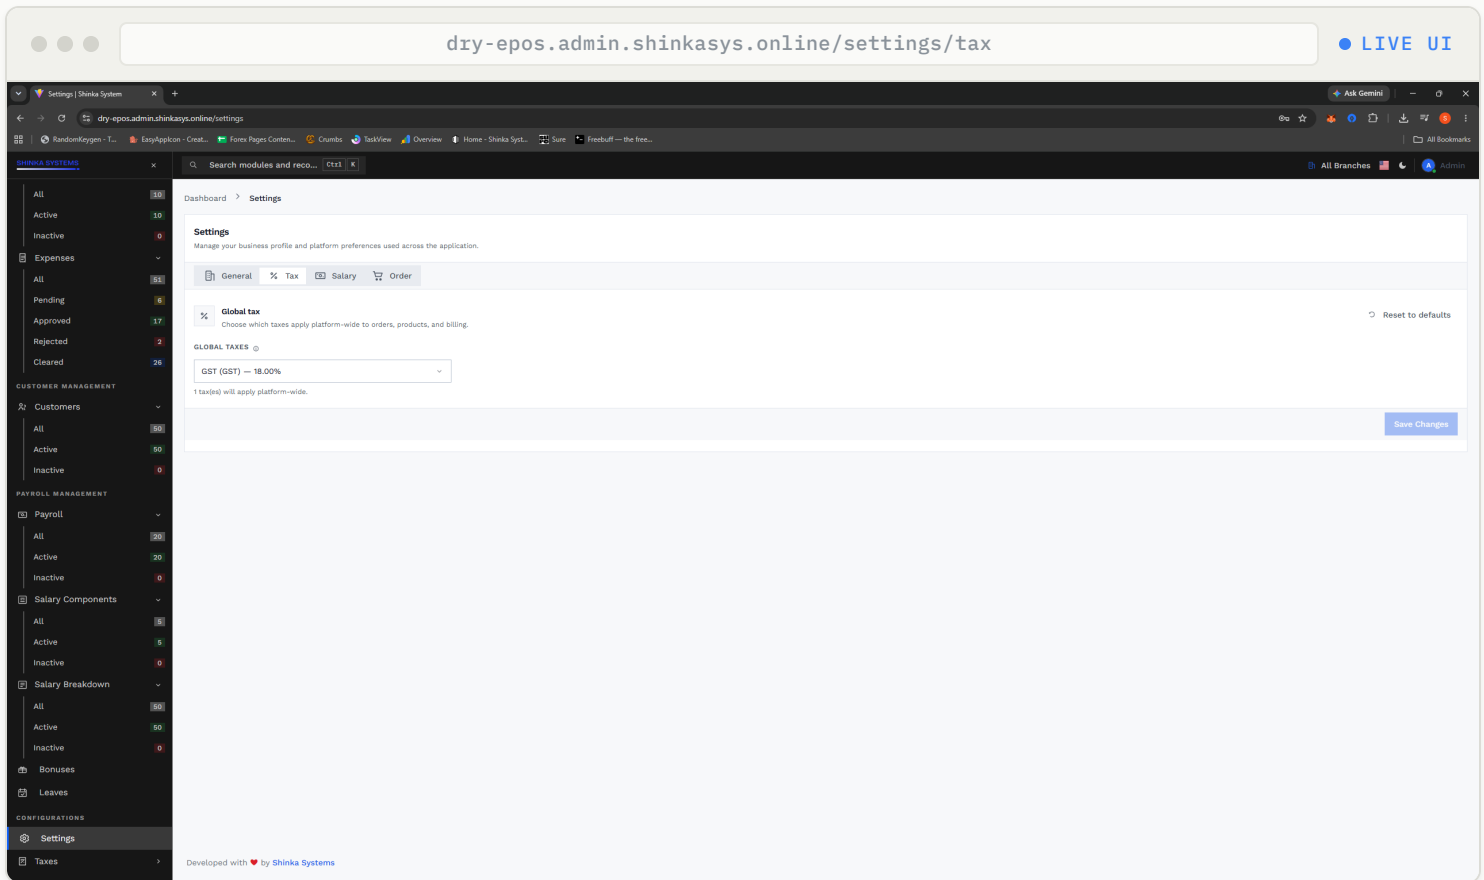

BRAND

CURRENCY

THEME

- **No code required** — full brand and currency customization straight from settings.

Global tax defaults, applied at the till

Default tax rates and auto-tax behavior are configured once, so every POS ticket calculates the correct liability without a cashier thinking about it.

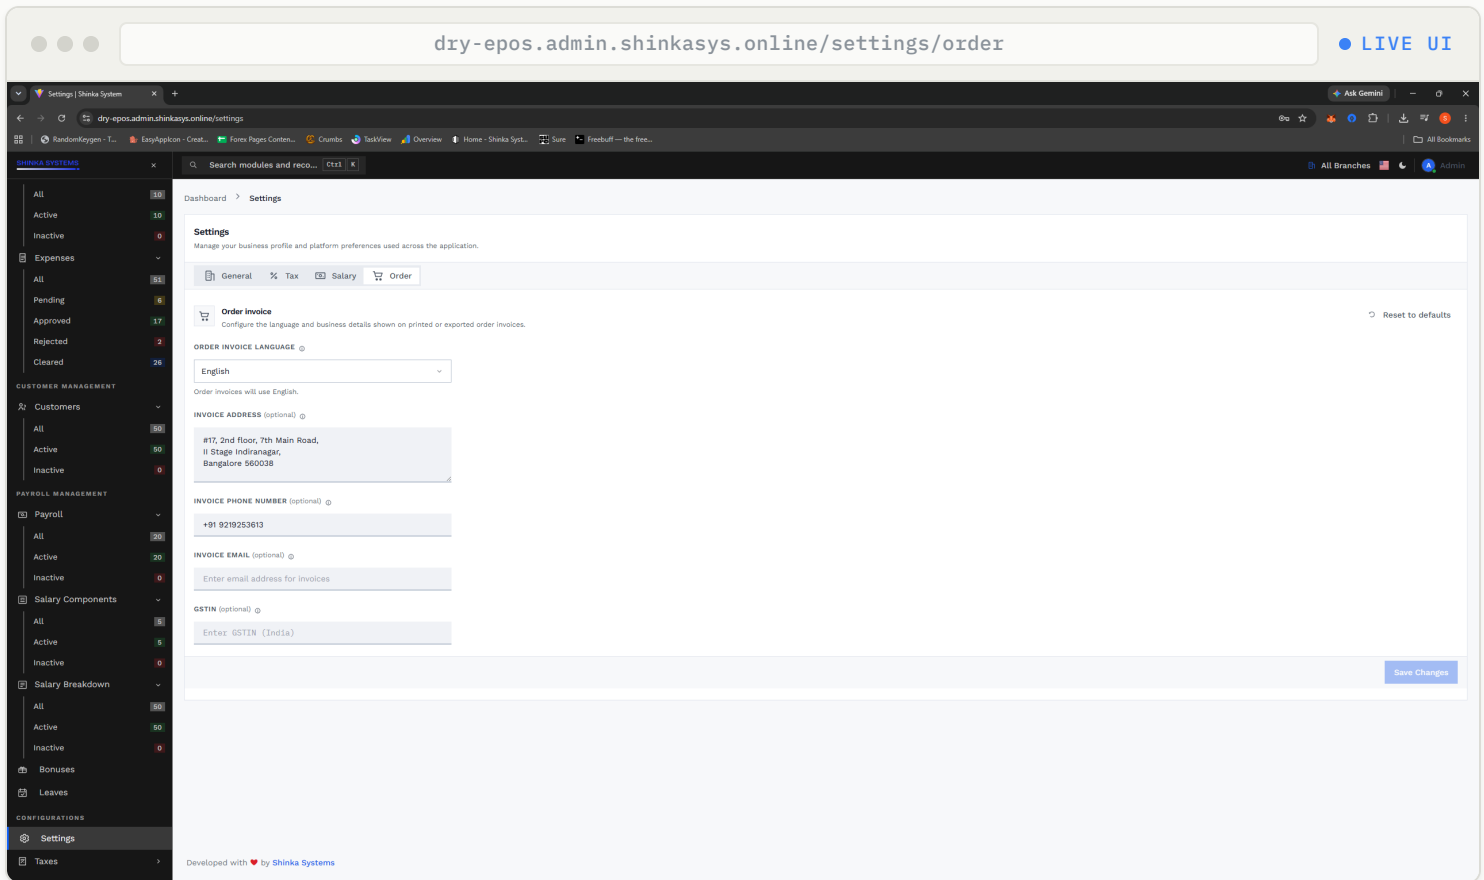

DEFAULT RATE

AUTO-APPLY

POS-BOUND

- **Auto-tax** — the correct liability is calculated on every ticket, automatically.

Invoice language, footers and disclaimers

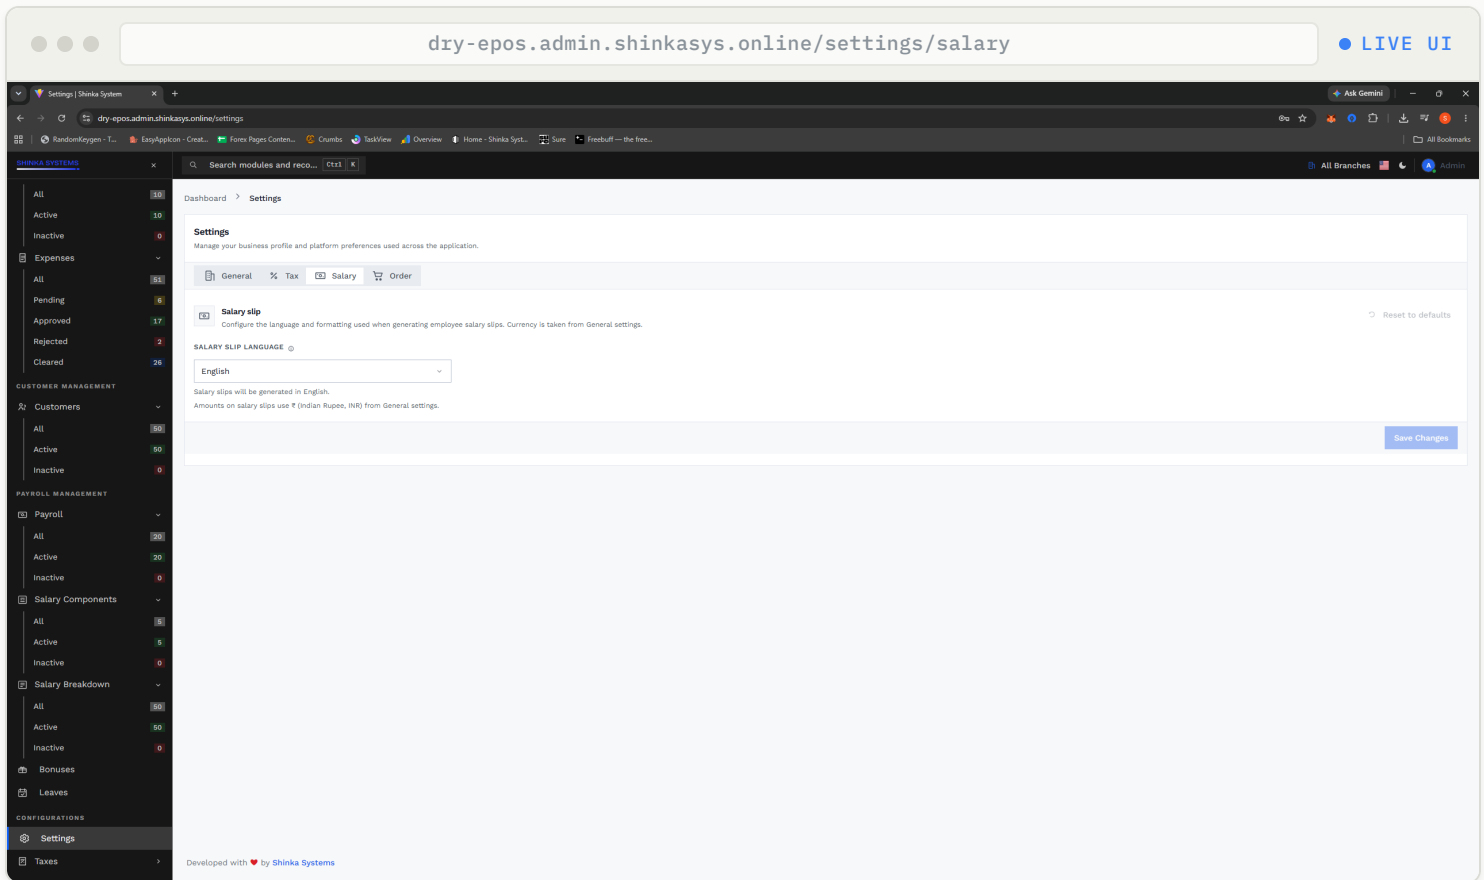

Receipt language, store address footer, invoice prefix and pickup disclaimers are all editable here — and reflected instantly on every printed ticket.

[INVOICE LANGUAGE](#)[FOOTERS](#)[DISCLAIMERS](#)

- **Legal-ready receipts** — disclaimers and store terms print on every ticket automatically.

Payroll currency and pay-cycle defaults

Base payroll currency, default pay cycles and overtime multipliers are set centrally so every branch's payroll run speaks the same numbers.

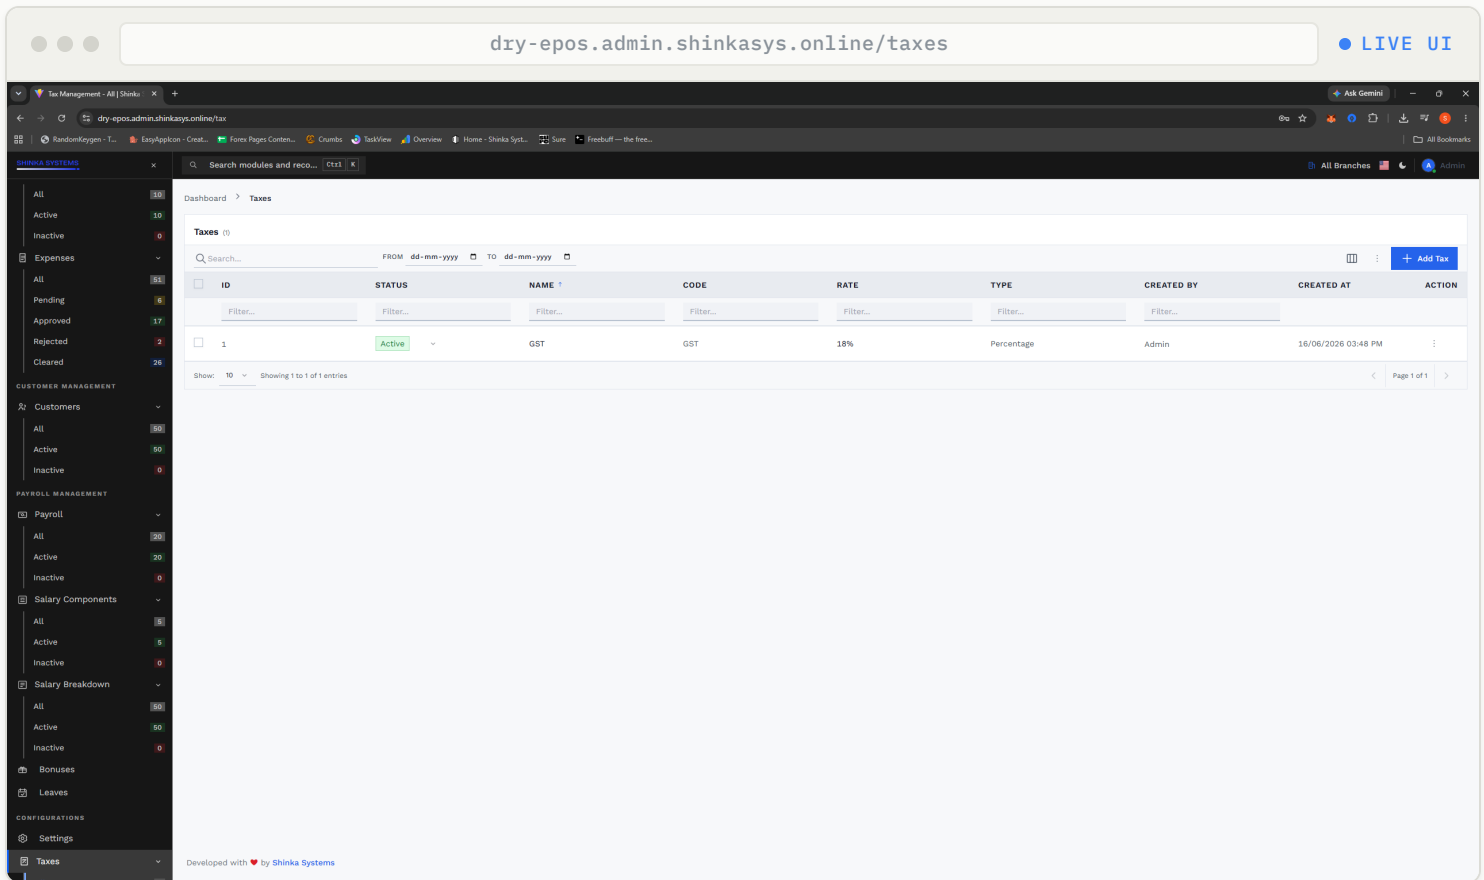

CURRENCY

PAY CYCLE

OVERTIME

- **One standard** — every branch's payroll run speaks the same currency and rules.

Multiple tax rates, applied automatically at checkout

A dedicated tax master supports multiple simultaneous VAT, GST or sales-tax rates for multi-region operators, bound directly to POS tickets and invoices.

VAT / GST

MULTI-RATE

INVOICE-BOUND

- **100% compliance** — the right tax is applied automatically on every order.

Everything a multi-branch dry cleaner needs to run

FRONT OF HOUSE

POS terminal, order lifecycle, invoicing, customer CRM.

BACK OF HOUSE

Catalog, employees, roles, branches, expenses, payroll.

GOVERNANCE
